Orthophosphorus was reported. You need to be more careful when you do the review!

John and Ron,

Attached is the final review checklist.

To release this report I need the "J" qualifiers on the non-detected TDS results to be changed to "UJ."

The other items are documentation items but would like them resolved so you can apply them to current data.

See Additional comments on second page of the checklist. I have the raw data with post-its if you need to see the actual sheets.

Cindy
